REPORT HIGHLIGHTS

- In Q3, the S&P 500 Specialty Chemicals Sub-Industry Index decreased 5.4%, underperforming a 2.0% increase in the S&P 500.
- The median EV/EBITDA multiple for reported private equity deals in the Specialty Chemicals & Performance Materials ("Specialty Chem") sector increased to 16.5x in YTD Q3 2026 from 12.3x in 2025, while multiples on strategic buyer transactions rose to 11.7x from 10.3x in 2025.
- M&A deal volume in the sector increased 88.1% in Q3 to 348 deals from 185 in Q2, and increased 32.3% from 263 deals in Q3 of the prior year.
- Europe was the most active region in Q3 with 123 deals in the sector, including Döhler's $175.3 million acquisition of Treatt, a UK-based provider of flavor and fragrance ingredients.
- Strategic acquirers accounted for 73.7% of total capital invested in YTD Q3 2026, up from 53.5% in 2025, as PE's share declined to 26.3% from 46.5%.

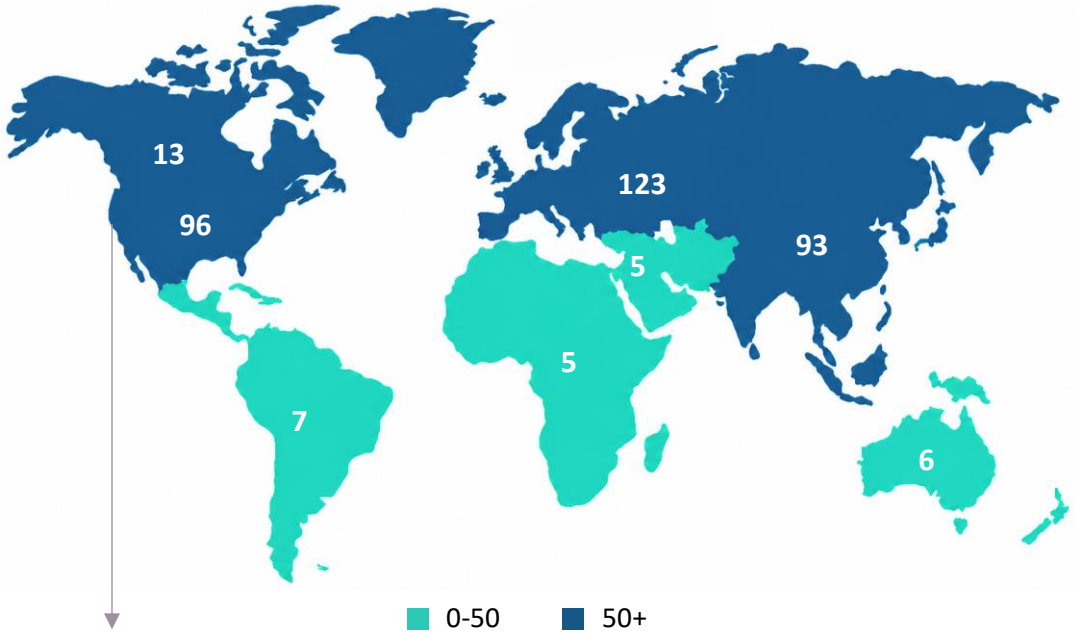
Global Deal Analytics

Of the 348 deals in the Specialty Chem sector in Q3, Europe was the most active with 123 reported deals. A notable European deal in Q3 (in addition to the Döhler/Treatt deal referenced on the previous page) was Dalli-Group's $159.8 million acquisition of Farmol, an Italian manufacturer of aerosol and liquid products for the personal, home and healthcare industries. North America was the second most active with 109 transactions, and all other regions combined for a total of 116 deals.



Canada:	**13**
United States:	**96**
Great Lakes:	16
South:	14
Mid-Atlantic:	15
Southeast:	16
Others:	35

In the U.S., the Great Lakes and Southeast regions were the most active areas with 16 deals each, followed by the Mid-Atlantic with 15 closed transactions. A notable Q3 deal in the Great Lakes region was Graco's $447.0 million acquisition of Valco Melton, a Cincinnati-based manufacturer of adhesive and fluid dispensing systems. The South saw 14 transactions, and all other regions combined for 35 closed deals.

In Canada, 13 transactions closed in Q3, including COSCIENS Biopharma's $15.0 million acquisition of Nualtis, a Quebec-based manufacturer of oral thin-film drug delivery systems.

Source: PitchBook Data

Of the 348 Specialty Chem deals in Q3, 109 deals were in the Commercial Products subsector, making it the most active from an M&A volume standpoint. Chemicals & Gases was the second most active with 93, followed by Commercial Services with 37 completed transactions. All other subsectors combined for 109 closed deals.

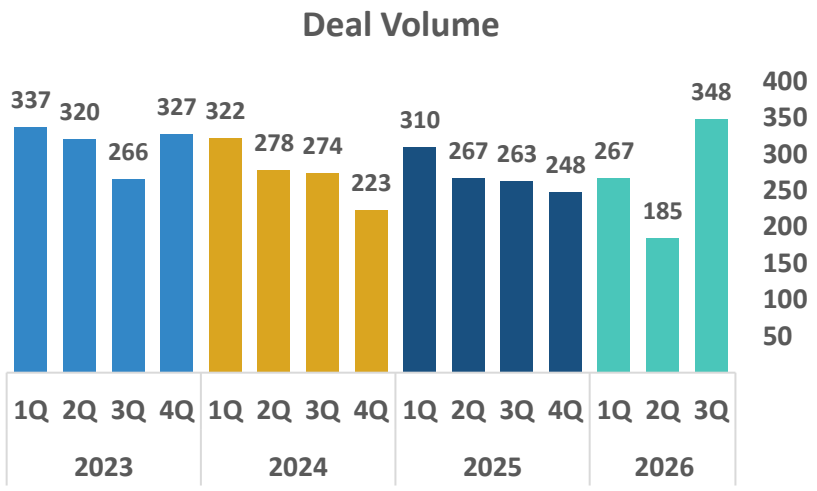
Global Deal Analytics

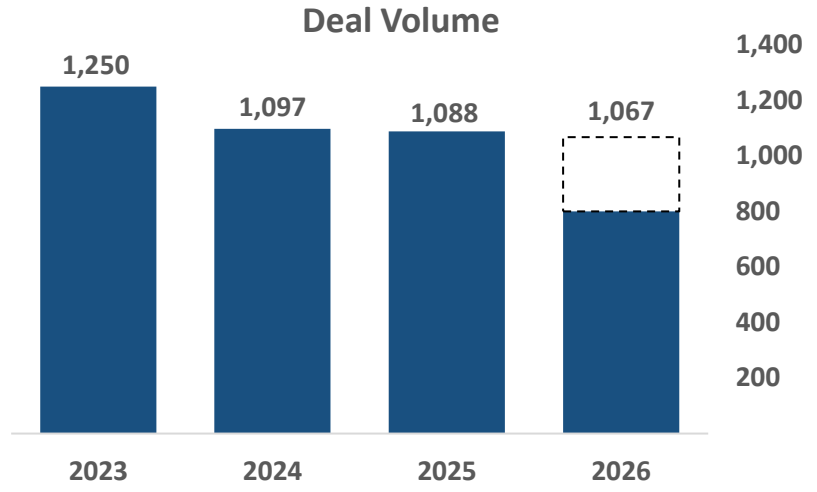
R. L. Hulett

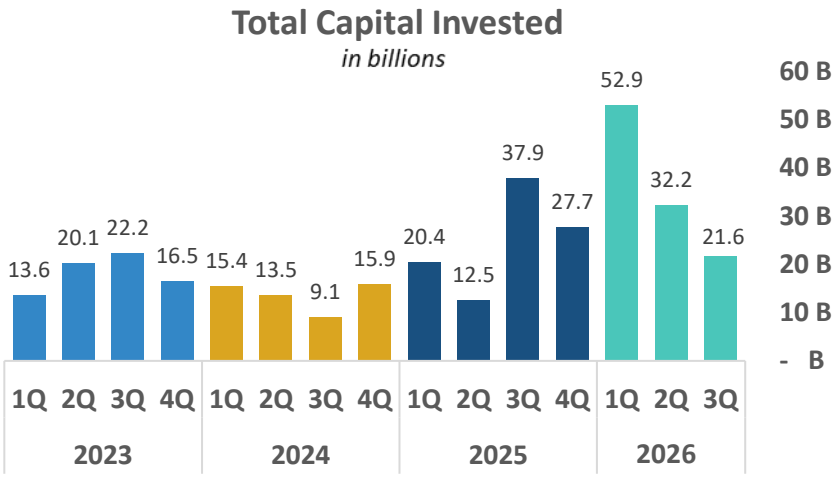
Deal volume in the Specialty Chem sector increased 88.1% in Q3 to 348 deals from 185 in Q2, and increased 32.3% from 263 deals in Q3 of the prior year. Q3 marks the highest quarterly deal volume in the last four years, led by strategic acquirers who accounted for 59.8% of Q3 deal volume. The Commercial Products and Chemicals & Gases subsectors contributed 202 of the quarter's 348 deals. YTD Q3 2026 volume of 800 deals is down 4.8% from 840 over the same period in 2025.

Based on YTD Q3 2026 activity, annual deal volume is on pace to decrease 1.9% to 1,067 deals in 2026 from 1,088 in 2025. While deal volume is expected to remain healthy into 2027, the Fed's September rate hike and elevated energy prices may dampen buyer enthusiasm going forward.

Total capital invested in the sector decreased 32.9% in Q3 to $21.6B from $32.2B in Q2, and decreased 42.9% from $37.9B in Q3 of the prior year. Only three Q3 deals with disclosed values exceeded $500 million, pointing to a quarterly rotation toward smaller sized transactions rather than a pullback in activity. In YTD Q3 2026, capital invested totals $106.8B, already exceeding the $98.4B invested in all of 2025, driven largely by Q1's outsized deal activity.







Source: PitchBook Data

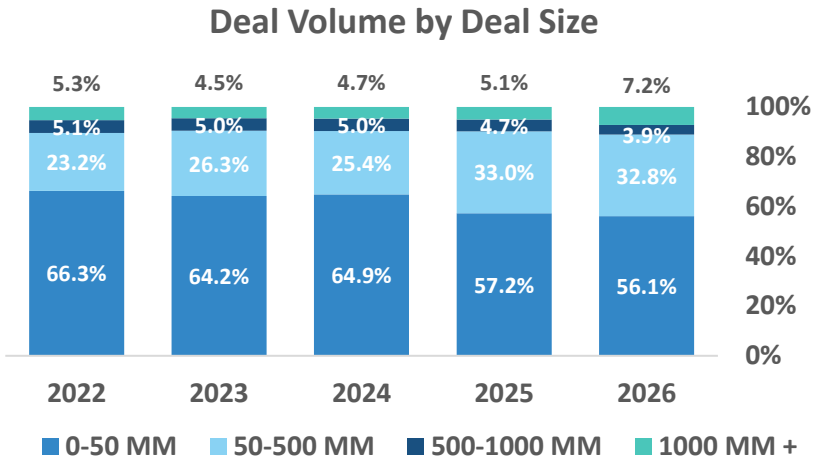
Global Deal Analytics

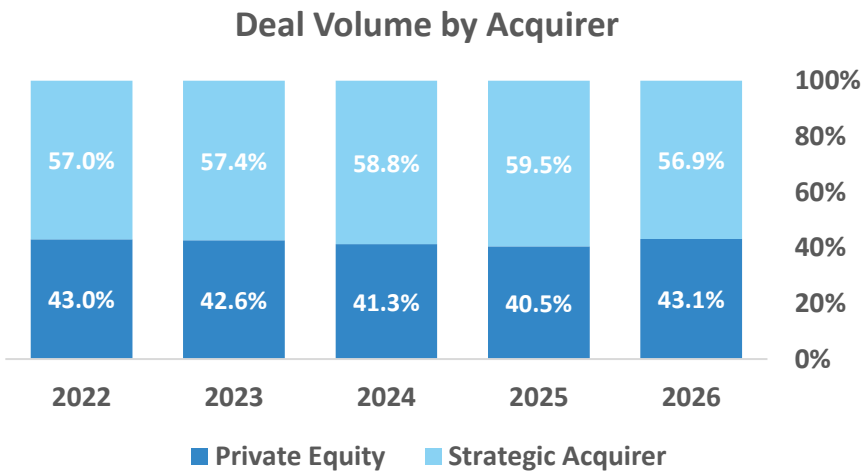
R. L. Hulett

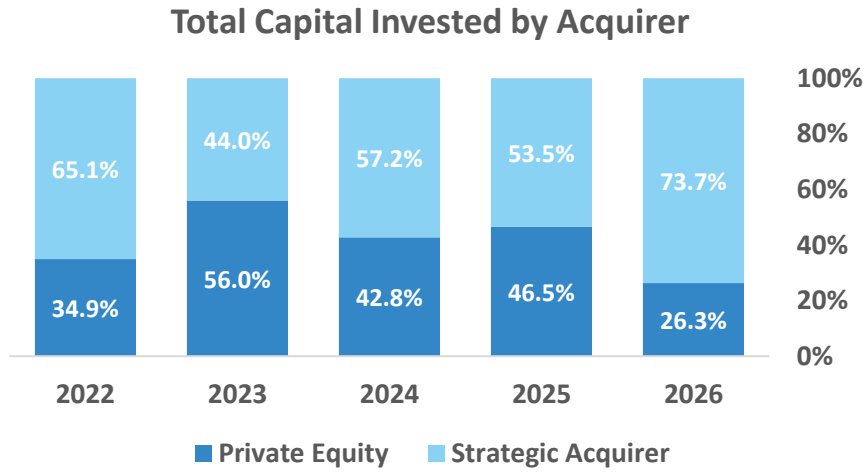
In YTD Q3 2026, we saw a shift in mix toward larger transactions compared to the prior year. The large-cap ($1,000+ MM) tranche increased to 7.2% from 5.1% in 2025, while the lower-middle-market ($0 to $50 MM), middle-market ($50 to $500 MM) and upper middle market ($500 to $1,000 MM) tranches decreased to 56.1%, 32.8% and 3.9% from 57.2%, 33.0% and 4.7%, respectively, in 2025.

As a % of total deal volume, PE buyers trended higher in 2026 relative to past years, representing 43.1% of deal volume in the sector in YTD Q3 2026 compared to 40.5% in 2025. YTD Q3 2026 marks the highest percentage of deal volume by PE buyers in the last five years, reflecting sustained private equity appetite for lower middle market and middle market deals.

Despite the increase in deal volume by PE acquirers, total capital invested by PE investors (as a % of overall capital invested) decreased to 26.3% in YTD Q3 2026 from 46.5% in 2025. This is primarily due to sizable strategic acquisitions diluting PE's % share, reflecting renewed appetite among strategic buyers who are leveraging strong balance sheets to pursue scale, vertical integration and portfolio diversification.







Source: PitchBook Data

Valuation Multiples

The median EV/EBITDA multiple for reported private equity deals in the Specialty Chem sector increased to 16.5x in YTD Q3 2026 from 12.3x in 2025, while multiples on strategic buyer transactions increased to 11.7x from 10.3x in 2025.

The median EV/Revenue multiple for reported private equity deals decreased to 1.4x in YTD Q3 2026 from 1.5x in 2025, while multiples on strategic buyer transactions held at 1.4x.

The YTD Q3 2026 median EV/EBITDA multiple of 16.5x for private equity buyers marks the second-highest level in the last four years.

Leading M&A Deals (Completed)

R. L. Hulett

Target	Investor	Driver	Deal Synopsis
TRIDENT SOLUTIONS	ALIGN CAPITAL PARTNERS	**Buyout/LBO**	Align Capital Partners acquired Trident Solutions, a Plano, Texas-based manufacturer of safety marking, identification and damage prevention products, for approximately $139.0 million in August 2026. The acquisition establishes a new platform for Align Capital Partners and positions Trident to expand its geographic footprint, manufacturing capabilities and product portfolio across utility, commercial and industrial end markets.
ASCEND ELEMENTS	KINTERRA	**Buyout/LBO**	Kinterra Capital acquired assets of Ascend Elements, a Massachusetts-based developer of recycled battery materials, out of bankruptcy for approximately $100.0 million in July 2026. The deal, which includes Ascend's IP portfolio and planned Poland facility, expands Kinterra's critical minerals platform and European battery supply chain presence.
CoolIT systems	ECOLAB	**Merger/ Acquisition**	Ecolab acquired CoolIT Systems, a Calgary, Alberta-based designer and manufacturer of direct liquid cooling systems for high-density data centers, for approximately $4.75 billion in July 2026. The acquisition doubles Ecolab's Global High-Tech business and positions it to serve the full AI value chain, from ultra-pure water for semiconductor fabs to liquid cooling for AI data centers.
FINTOIL	HITECVISION TAALERI	**PE Growth/ Expansion**	Taaleri and HitecVision invested approximately $120.4 million in Fintoil, a Hamina, Finland-based biorefinery that converts crude tall oil into renewable biochemicals and biofuel feedstocks, in July 2026. The investment strengthens Fintoil's balance sheet and supports its operational scale-up, expansion into higher-value product markets, and pursuit of industry consolidation opportunities.

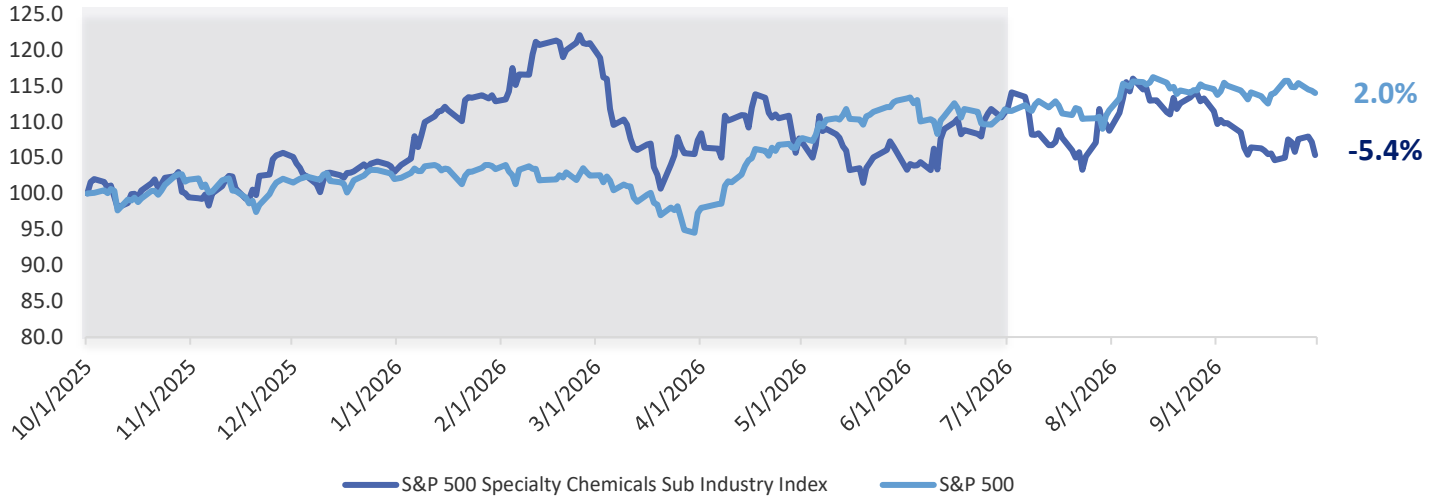
Index Performance

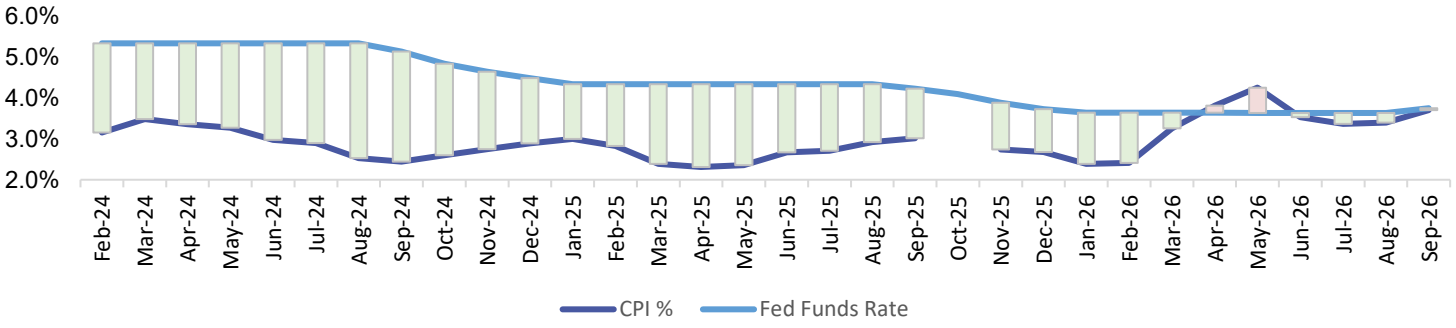
In Q3, the S&P 500 Specialty Chemicals Sub Industry Index decreased 5.4%, underperforming a 2.0% increase in the S&P 500.



Key External Drivers

Market leadership shifted this quarter as energy and value stocks took the lead. Energy was the top-performing S&P 500 sector, gaining 17.2% as oil prices surged, while technology rose 7.2% despite a chip-stock selloff from late June to late July on concerns over the payoff from AI spending. Materials declined 3.1%, consistent with the Specialty Chemicals index's underperformance. Year-to-date, the Russell 1000 Value Index was up roughly 23% versus about 4% for the Russell 1000 Growth Index as of mid-September, a sign the market is rewarding earnings stability over momentum.

The bigger story this quarter was the Fed's pivot to tightening. After holding rates at 3.50%–3.75% in July, with three members dissenting in favor of a hike, the FOMC raised rates 25 basis points to 3.75%–4.00% on September 16, its first hike since July 2023. Chair Warsh said "inflation is too high and has been for too long," and 16 of 18 officials now expect at least one more hike in 2026. The catalyst was renewed energy inflation as the conflict with Iran reignited, cutting Strait of Hormuz oil flows to about a tenth of pre-war levels and pushing Brent crude futures to $109 on September 10. CPI rose to 3.7% in September from 3.4% in August. With Hormuz still largely closed and the 10-year Treasury yield at 5.29%, energy and financing costs remain key risks heading into Q4..



Note: The U.S. Bureau of Labor Statistics did not publish an official CPI reading for October 2025 due to the federal government shutdown, which disrupted data collection. As a result, no official year-over-year CPI figure is available for that month.

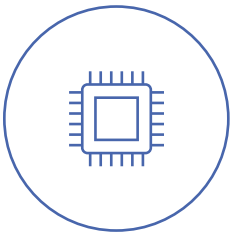
Emerging Trends in the Specialty Chem Sector



AI Thermal Management & Electronics Materials

Data center buildout creates a new specialty chemicals growth vertical

Ecolab closed its $4.75 billion acquisition of CoolIT Systems in July, ahead of schedule, adding a liquid cooling provider whose sales more than doubled year-to-date on AI data center demand. Solstice Advanced Materials' proposed $14.5 billion acquisition of Element Solutions was terminated in August after shareholder feedback, with Solstice launching a $500 million buyback instead. That outcome shows buyers still demand valuation discipline, even for AI-exposed assets. Producers of cooling fluids, high-purity process chemicals and semiconductor materials remain priority targets.

Scale Mergers Reshape North American Chemicals

Merger of equals targets integration and cost resilience

Olin and Huntsman shareholders approved their all-stock merger of equals in August, and the Hart-Scott-Rodino waiting period expired in September, creating a $12+ billion integrated North American chemicals company pending remaining regulatory approvals. The deal reflects a broader push for vertical integration and scale as European producers continue closing high-cost capacity. Buyers increasingly favor North American production footprints that offer feedstock advantages and resilience to tariffs.

Specialty-Commodity Valuation Divide Widens

Premium multiples concentrate in electronics-exposed chemistries

Specialty chemicals stocks trailed the broader market year-to-date, with the S&P 500 Specialty Chemicals index down 5.4% in Q3, and gains were concentrated. Companies serving electronics and data centers returned roughly 48%, with EV/EBITDA multiples expanding four to five turns, while valuations elsewhere in the sector held largely flat. Chemicals deals above $1 billion are tracking toward about 20 in 2026, above the ten-year average of 13. Sponsors are bringing specialty assets with durable margins to market, while commodity assets face longer processes.

PFAS Restriction Moves Toward Final Opinion

Regulatory clarity accelerates reformulation-driven M&A

The European Chemicals Agency's risk committee adopted its final opinion supporting a broad PFAS restriction in March, and the socio-economic committee is expected to adopt its final opinion by the end of 2026, with targeted derogations for uses where alternatives are not yet available. Coatings, adhesives and fluoropolymer users are reformulating ahead of the deadlines. Businesses with validated PFAS-free chemistries and compliance data are commanding premium interest from strategic and PE buyers.

Proven, Professional, Principled.

Investment Bankers for the Middle Market

About

R.L. Hulett is a middle-market investment bank based in St. Louis, Missouri, providing M&A and financial advisory services to middle-market companies. Since its founding in 1981, the firm has advised in more than 300 transactions in a variety of industries including Industrials, Plastics & Packaging, Food & Consumer, Business Services, Tech-Enabled Services and Healthcare. The firm has an experienced team of M&A advisors consisting of former business owners, seasoned corporate executives, professional service firm partners, CPAs and MBAs. Our ability to deliver customized solutions to meet or exceed our clients' expectations is what sets us apart from our competitors.

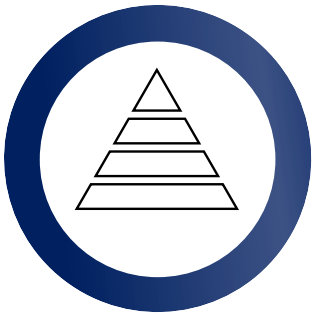
Our Service Offerings

Sell-Side Advisory: Sell your business

Sell your business for the highest price and for the best terms. At R.L. Hulett, communicating the value of your business to targeted buyers and finding the best fit for your team is our forte. We strive to maintain your company's culture and heritage even as you transition out of your business.

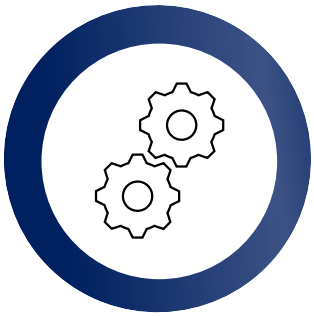
Buy-Side Advisory: Buy a business

Searching for acquisition targets can be a challenging and time-consuming task when trying to run your own business at the same time. Navigating the risks and pitfalls in negotiating valuation and deal structure can also be a daunting task for many business owners. Let our team help you minimize your risk and reduce time-wasting efforts with our decades of experience in advising in both buy- and sell-side M&A transactions. We utilize industry-leading M&A databases to scout for opportunities and pre-screen for "real" actionable targets so you can stay focused on what matters.



Capital Raise: Gain financial support

With over 45 years of experience in middle-market M&A advisory, we know how to package up your deal and put you in front of the right kind of investors who have the capital and the industry expertise you need to grow your business. Our team will develop a go-to-market strategy and advise on deal structure, valuation, due diligence and transition issues. Whether you are seeking capital for growth or trying to buy out other shareholders, we have the tools, expertise, and experience to execute a strategic process and find the optimal outcome to meet your objectives.



Restructuring: Reorganization of your business

In today's uncertain economic times, more and more companies are finding themselves in unfamiliar, and unwanted, positions. Many business owners are hoping recovery is just around the corner; however, proactive measures are often required to maximize the remaining value of the business. Our team can aid banking institutions with workout situations by implementing internal controls over cash management and performing ongoing cash flow modeling for their clients. We can also help business owners avoid having trouble making payments on their debts and the cumbersome and low-value asset liquidation process.

Selected Transaction

Below is a recent transaction facilitated by R.L. Hulett. This transaction exemplifies our commitment to delivering exceptional value and strategic growth for our clients.

The Seller: Founded in 1928 in Columbia, Missouri, Wolcott Water Systems, Inc. ("Wolcott") is a leading Midwest-based distributor of industrial and commercial water treatment products, including ion exchange resins, filtration media and reverse osmosis membranes, serving industrial, institutional and municipal customers. After more than thirty years of owning and operating the business, Anne Orazio and Jane Mahieu sought liquidity and a partner to help take the company to its next stage of growth.

The Buyer: Psalm of Life Capital LLC is a private investment firm founded by Paul Fox to partner with founder- and family-owned businesses. It invested alongside Sutherland Capital, a growth capital firm focused on lower-middle-market businesses in Missouri and the Midwest, through Sutherland's Missouri Rural Investment Fund.

Transaction Rationale: The partnership brings growth capital and resources to support Wolcott's expansion into higher-margin product categories, including reverse osmosis filtration systems, while existing management remains in place and the company's culture and supplier relationships are preserved.
